ZONING DISTRICT	LAND AREA	MAXIMUM NUMBER OF ALLOWED BEE COLONIES
All Residential and Agricultural Zoning Districts	NA	No limit*

## Notes:

1. Keeping of animals for properties located within a Planned Community District must be authorized through an Area Plan. See Section 12.120 (D)(5) for requirements of keeping animals in the Planned Community District.

2. Equivalencies: One (1) Category One animal is equivalent to two (2) Category Two animals. One (1) Category Two animal is equivalent to two (2) Category Three animals.

\* There is no defined maximum number of allowed animals/bee colonies, however, animals/bee colonies must be kept in good health and without creating nuisances to neighboring property owners. A kennel license is required to keep more than 2 dogs or 3 cats on any property.

One (1) Category One animal is equivalent to two (2) Category Two animals. One (1) Category Two animal is equivalent to two (2) Category Three animals.
